

PECB Certified ISO 37101 Lead Implementer

Master the implementation of Sustainable Development in Communities based on ISO 37101

Why should you attend?

The PECB ISO 37101 Lead Implementer training course enables you to develop the necessary expertise to implement a management system for sustainable development in communities (MSSDC) based on ISO 37101, an international standard that aims at helping communities of all types and sizes become more sustainable and resilient. During this training course, you will gain a thorough understanding of the best practices used for the implementations of ISO management system standards in general, with a special emphasis on sustainable development as set out by the requirements of ISO 37101.

After mastering all the necessary concepts, techniques, and implementation approaches, you can sit for the exam and, if you successfully pass, you can apply for a “PECB Certified ISO 37101 Lead Implementer” credential. By holding this credential, you demonstrate that you have the practical knowledge and professional capabilities to help an organization implement an MSSDC that meets the requirements of ISO 37101 and you can help communities become more sustainable.

Who should attend?

- Managers or consultants involved in sustainable development and management system standards
- Officials from the public sector that are tasked with helping their communities become smarter, more sustainable, and resilient
- Individuals from non-governmental bodies that seek to help their communities become more sustainable, resilient, and smarter
- Expert advisors seeking to master the implementation, operation, and maintenance of an MSSDC based on the requirements of ISO 37101
- Individuals responsible for maintaining conformity to MSSDC requirements
- Individuals that are part of sustainable development teams in local governments

Course agenda

Duration: 5 days

Day 1 | Introduction to ISO 37101 and initiation of an MSSDC

- Course objectives and structure
- Standards and regulatory frameworks
- Fundamental concepts and principles of sustainable development
- Initiate the MSSDC implementation
- Understand the organization and its context
- Leadership and commitment

Day 2 | Planning the implementation of an MSSDC

- Scope of MSSDC
- Sustainability purposes and issues
- Policy
- Roles and responsibilities
- Risk management

Day 3 | Implementation of an MSSDC

- Strategy for sustainable development
- Resource management
- Awareness and communication
- Documentation management
- Operations management

Day 4 | MSSDC monitoring, continual improvement, and preparation for the certification audit

- Monitoring, measurement, analysis, and evaluation
- Internal audit
- Management review
- Treatment of nonconformities
- Continual improvement
- Preparing for the certification audit
- Competence and evaluation of implementers and closing of the training

Day 5 | Certification exam

Learning objectives

- Learn how to support an organization in effectively planning, implementing, managing, monitoring, and maintaining an MSSDC
- Identify the correlation between ISO 37101 and other standards and regulatory frameworks
- Learn how to interpret the ISO 37101 requirements in the specific context of a community
- Master the concepts, approaches, standards, methods, and techniques used for the implementation and effective management of an MSSDC
- Enhance your expertise to advise a community during the implementation of an MSSDC

Examination

Duration: 3 hours

The “PECB Certified ISO 37101 Lead Implementer” exam complies with the PECB Examination and Certification Program (ECP) requirements. The exam covers the following competency domains:
